

January Lotto Block

N = Navy Blue Print

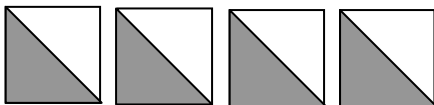

W = Winter White Print

Cut 1 square 6-1/2" **W**

Cut 4 squares 2-1/2" **N**

Put one N square in each corner of the large W square. Sew from the corner on one side to the diagonal corner on the opposite side. Press the N corner out so they look like the snowball block above. Trim away the excess triangles in the back to leave a $\frac{1}{4}$ " seam. The block should measure $6\frac{1}{2}$ ".

Then for fun, sew your triangles together that you cut away from the snowball corners. Trim these half-square triangle blocks to $1\frac{1}{2}$ " and include them with your snowball block above. Whoever wins can use these for a border or matching miniature or whatever!

Happy Winter!
