

May Lotto Block from Dancing Quilts by Debbie Bowles

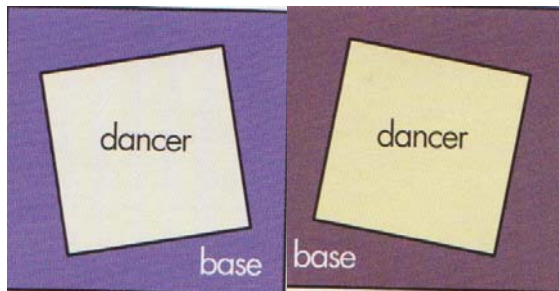

Finished block is 8 1/2 inches square

Use 1/4 inch seams for joining units.

1-9 in. dark purple background square (base)

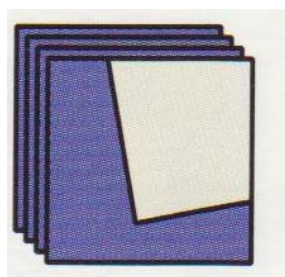

1-6 in. light purple square (dancer)

Lay the small square on top of the large square & twist it- you may twist it to the right or to the left.

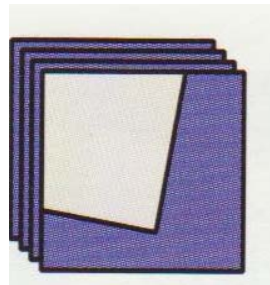

Sew the dancer onto the base with any kind of stitch you would like with either matching or contrasting thread. You do not need to fuse, pin or glue dancer to the base.

Make a cut 4 1/2 in from edge of block horizontally & a cut 4 1/2 in. vertically. You will have 4-4 1/2 in blocks.

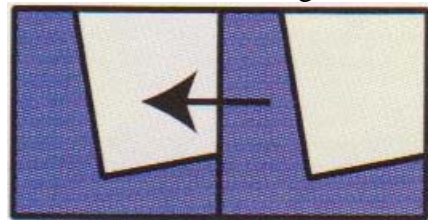

Left twist.

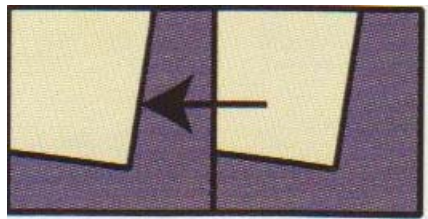

Right twist.

Sew 2- 4 1/2 in. squares together as follows.

You will have 2 rectangular blocks like this

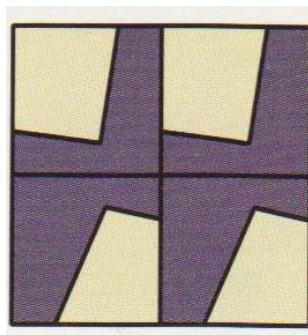

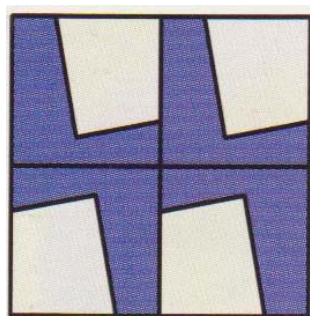

OR 2 rectangular blocks like this.

Then sew your rectangular blocks together with the purple edges together.

Your block will look like one of the blocks below.

Have fun “dancing” with these blocks!
