

October 2013 Lotto Block: Deer Paw

This block was designed by Terry Spaeth!

Construct a simple 9 patch, using 3 ½ inch squares. Please use a green leafy fabric for the corners and center, and an orange/yellow autumnal print in between.

I have made sets of deer tracks using Heat and Bond on black fabric. Two sets of these may be positioned on each of the green squares, and ironed in place using a dry iron.
